

Time is Money

Small Businesses know this all too well. Save money by staying in the office or your shop and make deposits from there. Hawaii National Bank's eCapture product allows you to process checks without leaving your location. The easy web-based solution requires few, if any, software upgrades and can be up and running on your PC in minutes. We will provide you with a high-speed scanner that connects directly to your PC at no additional cost!

eCapture

Remote Deposit Capture

HAWAII NATIONAL BANK

What is eCapture?

eCAPTURE is a system by which electronic images of the checks you receive in the business day are scanned and electronically sent to Hawaii National Bank. A digital scanner captures check images and magnetic ink character recognition (MICR) information and transposes information into the data entry fields, eliminating much of the manual process. Just think of it as your personal bank branch, with hours that you set! The security of information is a high priority and all precautions are taken to ensure the safety of its transmission.

FEATURES

- Submit checks for deposit electronically 24/7
- 24/7 access to retrieve check images and data
- Download import files to update your accounts receivable system
- Fraud detection alerts user to possible duplicate items

TellerScan*

TS240
